

Professor, Penn State University, USA

Chiara Lo Prete is an associate professor of energy economics at Penn State University, specializing in electricity and natural gas market design, energy security, and environmental regulations. She develops mathematical models and applies empirical methods to study topics like grid reliability, wind energy integration, and the geopolitics of energy. Since 2021, she has also served as associate head of diversity, equity, and inclusion in her department, contributing to an inclusive academic environment.
