

Professor, University Paris-Saclay, France

Born in 1971, Yannick Perez has been a Full Professor of Economics at CentraleSupélec since 2019. He earned his Master's and PhD in Economics from La Sorbonne and previously taught at University de Cergy and University Paris-Sud.

He was Chief Economic Advisor at the Loyola de Palacio Chair on European Energy Policy (2008-2023) and Senior Research Fellow at the Armand Peugeot Research Chair on Electromobility (2012-2023). His research focuses on market design, energy economics, and electricity markets, advising companies like EDF, Areva, and the World Bank.

At CentraleSupélec, he heads the Master's program EEET-ETM. He has supervised 15 PhD theses and is currently mentoring five doctoral students.
