

Born in 1978, Olivier Massol is a Full Professor of Economics at CentraleSupélec and Head of the Energy Transition Program at the Climate Economics Chair. He is also a non-resident research fellow at City, University of London.

With 25 years of experience in energy economics, his research focuses on energy systems, infrastructure regulation, and technology policy (e.g., CCUS, hydrogen). Before joining CentraleSupélec in 2024, he was a faculty member at IFP School (2007-2024) and previously worked as an economist in the utility sector.

Olivier holds a PhD in Economics (City, University of London), an HDR (Paris-Dauphine), and degrees in engineering and energy economics. He was knighted “Chevalier dans l'Ordre des Palmes Académiques” in 2003.

He also serves as Executive Director of "The Economics of Gases" Chair, Vice-Chairman of the 2025 IAEE International Conference in Paris, and a council member of the French Association of Energy Economics.
